
Scabies: Training of health workers at national and district levels on skin-NTDs

The Defeat NCD Partnership

Type:	Course
Location:	Web-based
Duration:	1 Hours
Programme Area:	Other
Website:	https://whoacademy.org/coursewares/course-v1:WHOAcademy-Hosted+H0026EN+H0026EN ...
Price:	\$0.00
Event Focal Point Email:	globalhealth@unitar.org

BACKGROUND

Scabies can be diagnosed or highly suspected at the peripheral health level. Effective treatment exists for individuals affected, including the persons closely in touch with a patient, and the communities through mass drug administration. The aim of the course is to provide information about scabies to increase knowledge and skills of national and front-line health workers to address this disease.

EVENT OBJECTIVES

- Understand the epidemiology of scabies;
- Describe the clinical aspects;
- Understand how the diagnosis is made;
- Explain how to treat scabies;
- Understand the socioeconomic impact; and
- Describe the public health interventions.

TARGETED AUDIENCE

Frontline health workers.
