Type:	Course
Location:	Web-based
Duration:	4 Weeks
Programme Area:	Decentralize Cooperation Programme
Website:	https://unitar.org/sustainable-development-goals/people/our-portfolio/road-safe...
Price:	\$0.00
Event Focal Point Email:	roadsafety@unitar.org
Partnership:	Diageo

BACKGROUND

Road safety is a global challenge, with road traffic accidents being a leading cause of death and disability worldwide. The United Nations Sustainable Development Goals (SDGs) emphasize the need to reduce road deaths and injuries. High visibility enforcement interventions are a key strategy to improve road safety, as they increase the perceived risk of being caught and deterred from engaging in risky driving behaviors. This course provides a comprehensive overview of road safety interventions, focusing on high visibility enforcement. It covers the legal framework, operational aspects, and the role of various stakeholders in ensuring road safety.

The e-Learning course “High Visibility Enforcement Interventions: Law Enforcement to reduce road traffic crashes related to drivers using alcohol” aims to serve as a tool for government officials to help them design programmes and interventions that contribute to achieve Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol.

The e-Learning course aims at raising awareness, creating knowledge and improving performance on. the following areas:

- The UN Decade of Action for Road Safety- Pillar 4 Safer Road Users

- The Global Road Safety Performance Targets and Sustainable Development Goals (SDGs) related to road safety
- The use of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol

LEARNING OBJECTIVES

By the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4 - High Visibility Enforcement (HVE) and its impact on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol
- Describe the impact of the HVE on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the HVE in the context of the Sustainable Development Goals (SDGs) and the UN Decade of Action for Road Safety
- Describe the impact of the HVE on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the HVE in the context of the Sustainable Development Goals (SDGs) and the UN Decade of Action for Road Safety

EN:

At the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4

- Recognize the 12 Global Road Safety Performance Targets and SDGs related to road safety
- Adapt and apply the HVE approach with extensive communication, education, and outreach to their respective contexts
- Identify and integrate key stakeholders to address road safety
- Develop minimum indicators to monitor progress towards the achievement of the Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol
